Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner initiated this interview to request authorization to add the word "configured" to line 1 of the claim so as to read "configured to be placed against at least one tissue within a patient's body" rather than "to be placed against at least one tissue within a patient's body" to avoid recitation of non-patentable subject matter under 35 U.S.C. 101. Authorization was also requested to delete the word "including" from the phrase "including comprising" in line 6 of claim 1, item a). Applicant's attorney, Mr. Brown, authorized this amendment during this interview.
